PROFILE SUMMARY

Full Stack Developer with experience in building web and desktop applications using React, Next.js, Node.js, Python, and Java. Strong interest in AI, system optimization, and scalable software solutions. Experienced in backend development, frontend integration, API design, and database management using MongoDB and SQL. Passionate about building efficient, user-focused applications and solving real-world problems through clean and maintainable code

TECHNICAL SKILLS

Programming Languages
Java, Python, C, JavaScript

Frontend
HTML, CSS, React, Next.js, Bootstrap, jQuery

Backend
Node.js, Express, Flask, Spring Boot

Databases
MongoDB, SQL

Cloud & Deployment
Azure, Vercel

APIs
REST

Version Control
Git, GitHub

WORK EXPERIENCE

Software Developer Intern Jul 2024 – Jan 2025
DeepThought EduTech Ventures Pvt. Ltd. Hyderabad, India
(Remote)

- Worked as a Full Stack Developer on multiple web applications, contributing to both frontend and backend development.
- Developed frontend pages using Smarty templating language, LESS CSS, and jQuery to create responsive and maintainable UI components.
- Built backend services using Node.js and MongoDB, supporting data handling and application logic.
- Integrated frontend and backend systems to deliver fully functional websites and improve overall application flow.
- Documented APIs and user interfaces to improve maintainability and ease of collaboration.
- Fixed bugs across the stack and supported interns by explaining core development concepts and best practices.
- Applied concepts such as MVP thinking, brand positioning, and systems thinking during development and product discussion.

PROJECTS

GreenThicks

- An e-commerce website built and deployed for selling products online with a modern frontend and scalable backend.
- Built and deployed an e-commerce platform using Next.js for the frontend and Node.js for the backend.
- Developed the complete backend, including API integration and application logic

Educational Task Management System

- A collaborative task management platform for tutors and students, designed to track tasks, analytics, authentication, and scheduling.
- Developed the backend using Spring Boot and the frontend using Next.js for a collaborative educational task management platform.
- Implemented task tracking, analytics, user authentication, and calendar integration.

System Assistant Application

- A desktop assistant application that lets users execute tasks using voice commands.
- Built a voice-controlled desktop application using Electron.js with a Python-powered backend.
- Enabled task execution through voice commands to improve accessibility and automation.

Handwritten Digit Recognition Web Application

- A machine learning web app that predicts handwritten digits using a trained model.
- Built a web application to predict handwritten digits using a TensorFlow model trained on the MNIST dataset.
- Developed the frontend using HTML, CSS, and JavaScript and integrated the frontend with a Flask-based Python backend for prediction handling.

Anime Aura New Tab — Chrome Extension

- An anime-inspired new tab replacement published on the Chrome Web Store, featuring rotating wallpapers, a quick-access shortcut launcher.
- Built and published a Chrome extension using JavaScript, HTML, and CSS with local browser storage for all user data.
- Implemented automatic background rotation every 30 seconds with custom wallpaper uploads, a customizable circular shortcut launcher for up to 30 sites with automatic favicon fetching and custom icons, and an inactivity-triggered animated fireworks screensaver mode.

EDUCATION

B.Tech in Computer Science (AIML) 2026
Kakatiya Institute of Technology & Science, Warangal Warangal
CGPA: 8.86/10.0

CERTIFICATIONS

Microsoft Certified: Azure AI Cloud Developer Associate – Microsoft | 2026

Microsoft Certified: SQL AI Developer Associate – Microsoft | 2026

Career Essentials in Generative AI – Microsoft and LinkedIn | 2024

JavaScript – HackerRank | 2024

Programming in Python – SWAYAM MHRD | 2024

Programming in Java – NPTEL | 2023

Problem Solving Through Programming in C – NPTEL | 2023
